

ORBIS, THE FOUNDATION OF A MODERN DIGITAL HEALTH SYSTEM

DIGITAL IS NO LONGER OPTIONAL FOR THE HEALTH SYSTEM LOOKING FOR GREATER EFFICIENCY, BETTER HEALTH OUTCOMES AND ENGAGED CLINICIANS

Close the digital divide across the health system through uptake of modern digital solutions

Work towards the convergence of data across care settings, improving the real-time access to data for caregivers and simplifying access for patients.

Drive the development, implementation and deployment of rich digital functionality to meet the needs of the healthcare sector.

THE TRANSFORMATIONAL CHALLENGE

Health and Social Care need to implement technology that supports multiple care settings across the Continuum of Care: acute, mental health, social care, primary care, ambulance and community.

The Health System needs an EMR that:

enables the delivery of **quality care**

streamlines clinical tasks, **releasing time to care**

provides **real time access** for caregivers and patients

ORBIS: A UNIQUE PROPOSITION

Cloud ready, by design

Comprehensive solution

Supports local customisation

Available everywhere from desktop to mobile

Supports improved patient engagement

Clinician centred user Experience

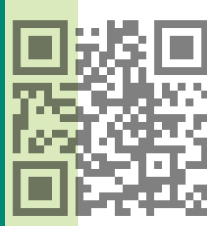

Comprehensive EMR support for Clinicians and Managers
