

DeepUnity Platform - DISCOVER AN UNPRECEDENTED PLATFORM TECHNOLOGY FOR YOUR DIAGNOSTIC APPLICATIONS

STATE-OF-THE-ART

DeepUnity Platform is the foundation of our DeepUnity Applications and built on cutting edge technology to provide the best possible technological stack for Diagnostic Imaging Solutions.

**Higher availability of
applications**

**New technological
possibilities**

**Efficient deployments /
Lower costs and time effort**

DeepUnity Applications

DeepUnity Platform is the foundation of our DeepUnity Applications such as:

- PACS Clients
- Medical Archive
- Universal Viewer
- VNA
- Image import, export and exchange

DeepUnity Platform

The core of DeepUnity Platform is built on Microservice architecture and Kubernetes, both an up-to-date technology which shapes the platform and gives its value and status as cutting-edge technology
