

Dedalus recognised by IDC MarketScape as a Leader for Electronic Healthcare Records in Europe

Milan, January 1st, 2024 - We are proud to announce that Dedalus has been positioned in the "Leaders" Category in the IDC MarketScape: Europe Electronic Healthcare Record 2023-2024 Vendor Assessment (December 2023, IDC #EUR150048423).

We believe thanks to the dedication of its clients, people and teams, to its constant pursuit of quality, and to the trust of its investors, Dedalus strengthens its reputation year after year, gaining ground at each stage of the Continuum of Care.

"I am deeply grateful to all the Dedalus employees who build our innovative vision each day with enthusiasm, and to the managers for their ability to change habits and implement more effective actions, so as to achieve goals together with our customers. I am proud of this company, that grows by hiring the next generation, and that is capable of instilling hope, despite the challenges and critical moments our world is experiencing", says Andrea Fiumicelli, Chairman of the Board of the Dedalus Group.

"Dedalus is already a solid company, and in 2024, we aim to grow even more and continuing to be an attractive company! This means being able to run the business exactly at the intersection of three axes: what drives the "passions" of the employees, what makes the company the best in the competitive arena, and the engine of sustainable economic growth. To have achieved this recognition makes us really proud. It is a significant, external, and independent confirmation that our strategy and our plans are going in the right direction, and we will continue to work hard to support our clients and the healthcare ecosystems they live/operate in", Alberto Calcagno, Chief Executive Officer of the Dedalus Group, adds.

ABOUT DEDALUS
