

United Nations Global Compact Partnership Press Release

Dedalus Joins the United Nations Global Compact

Dedalus is proud to join the United Nations Global Compact, the world's leading corporate sustainability initiative, advancing responsible business practices grounded in Ten Principles across the fields of human rights, labour, environment and anti-corruption.

Through this participation, Dedalus further embeds these principles into its strategy, culture and operations, actively contributing to the achievement of the United Nations Sustainable Development Goals.

This milestone marks a significant step forward in Dedalus' journey towards a more sustainable and responsible growth model, focused on creating long-term value for people, society and the planet.

“By joining the United Nations Global Compact, Dedalus translates global principles into concrete actions, advancing a more sustainable and inclusive future,” said Valentina Paduano, Group Chief Sustainability Officer. “This milestone marks a further step in turning sustainability into measurable action, with a continued focus on responsible innovation, transparency and long-term value creation”.

Through its participation, Dedalus will continue to advance initiatives supporting environmental stewardship, ethical business conduct, social responsibility and sustainable development, while ensuring transparent annual reporting on its progress.

Joining the United Nations Global Compact reflects Dedalus' broader ambition to contribute positively to global healthcare and society, fostering a future where technology, sustainability and human values work together to improve lives worldwide.

About Dedalus

Dedalus is a leading provider of healthcare and diagnostic software solutions, supporting healthcare professionals and organizations worldwide with innovative technologies designed to improve patient care and operational efficiency.

About the United Nations Global Compact

The United Nations Global Compact is the world largest corporate sustainability initiative. Launched by the United Nations, it encourages companies worldwide to adopt sustainable and socially responsible policies and to report on their implementation.
