

INTEGRATED & COORDINATED CARE

ALL INVOLVED

ENGAGE4ME

THE NEEDS

MORE PATIENTS, MORE INVOLVED

- Organisations need to deal with an increasing number of patients, with existing resources
- Reduced length of stays and homecare require involved patients

NO-SHOWS AND PATIENT "MIGRATION"

- Reducing the length of the stay while improving:
 - Compliance and follow-up
 - Attractiveness
 - No-shows and conformance indicators

CONTINUITY OF CARE

- Share and exchange data with the community, managing comprehensive workflows and allowing professionals to stay focused on priorities

THE SOLUTION: ENGAGE4ME CONTINUOUS & COORDINATED CARE

Engage4Me is a complete tool designed for healthcare professionals to share clinical and administrative information, both with peers and patients.

Connect all the stakeholders in care pathways

- Patients
- Professionals in health institutions
- Professionals in the community
- Home care providers
- Administrative staff

Design and coordinate care in every scenario, thanks to the powerful workflow engine

- Pre-admission modules
- Outpatient surgery
- Chemotherapy planning
- Diabetes pathways

Manage priorities, and focus on active problems using patient questionnaires and configurable rules.

THE BENEFITS BE EFFECTIVE AND ATTRACTIVE

Enhance your attractiveness offering the best services to both your patients and professionals.

Engage4Me provides all the information and tools your staff needs to effectively treat patients and optimise resources. Patients play an active role in their care and offer a better contribution to positive outcomes. Thanks to questionnaires and scores, the dynamic dashboards allow you to focus on patients with health issues first.

Time saved - Better focus

Patients involved

Seamless workflow

Better outcomes

Always available: mobile, cloud

THE FEATURES AN END-TO-END SOLUTION FOR THE CONTINUITY OF CARE

- Configurable workflows and rules
- Zero training and online tutorials
- Can be used on smartphones and tablets
- Interoperability: CDAR2, IHE, FHIR HL7 standards
- Privacy and Security: strong authentication, data encryption, GDPR compliance
- Multitenant architecture
- Quick deployment: cloud based; no hardware needed

Dedalus

Life flows through our software

About Dedalus

Dedalus is the leading healthcare and diagnostic software provider in Europe and one of the largest in the world. With its innovative framework of comprehensive and process-oriented solutions, Dedalus enables a revolutionary digital transformation of country-wide Healthcare Systems fully supporting the patient digital journey. Dedalus serves more than 6,100 private and public hospitals across 40 countries, through more than 6,500 highly specialised resources, of which 2,000 are dedicated to R&D activities. We aim to help caregivers and healthcare professionals deliver better care to the communities they serve and for this reason we are very proud of doing a special job, working with healthcare organisations to improve healthcare outcomes for patients.
