

HOSPITAL & CLINICAL SOLUTIONS

# ENTERPRISE MANAGEMENT

STREAMLINE PROCESSES  
—  
CONSISTENT OUTCOMES

# TOWARDS BETTER HEALTH OUTCOMES

Today's population is growing and more exposed to chronic illnesses, **stretching healthcare enterprises** to their limits.

**Patients are increasingly more informed** and ask for a more tailored and lean experience when accessing services. Clinicians are under constant pressure to stay up to date with the latest advancements to make the **best treatment decisions**.

Without **fast access** to accurate patient data and clinical references, medical professionals are impeded in their decision making.

# NEEDS

- Instantaneous information at the point-of-care
- Cost optimization & efficient revenue cycle management
- Multidisciplinary approach
- Improved care collaboration
- Optimized use of technology to enable continuum of care
- Efficiently addressing regional, statutory and regulatory requirements

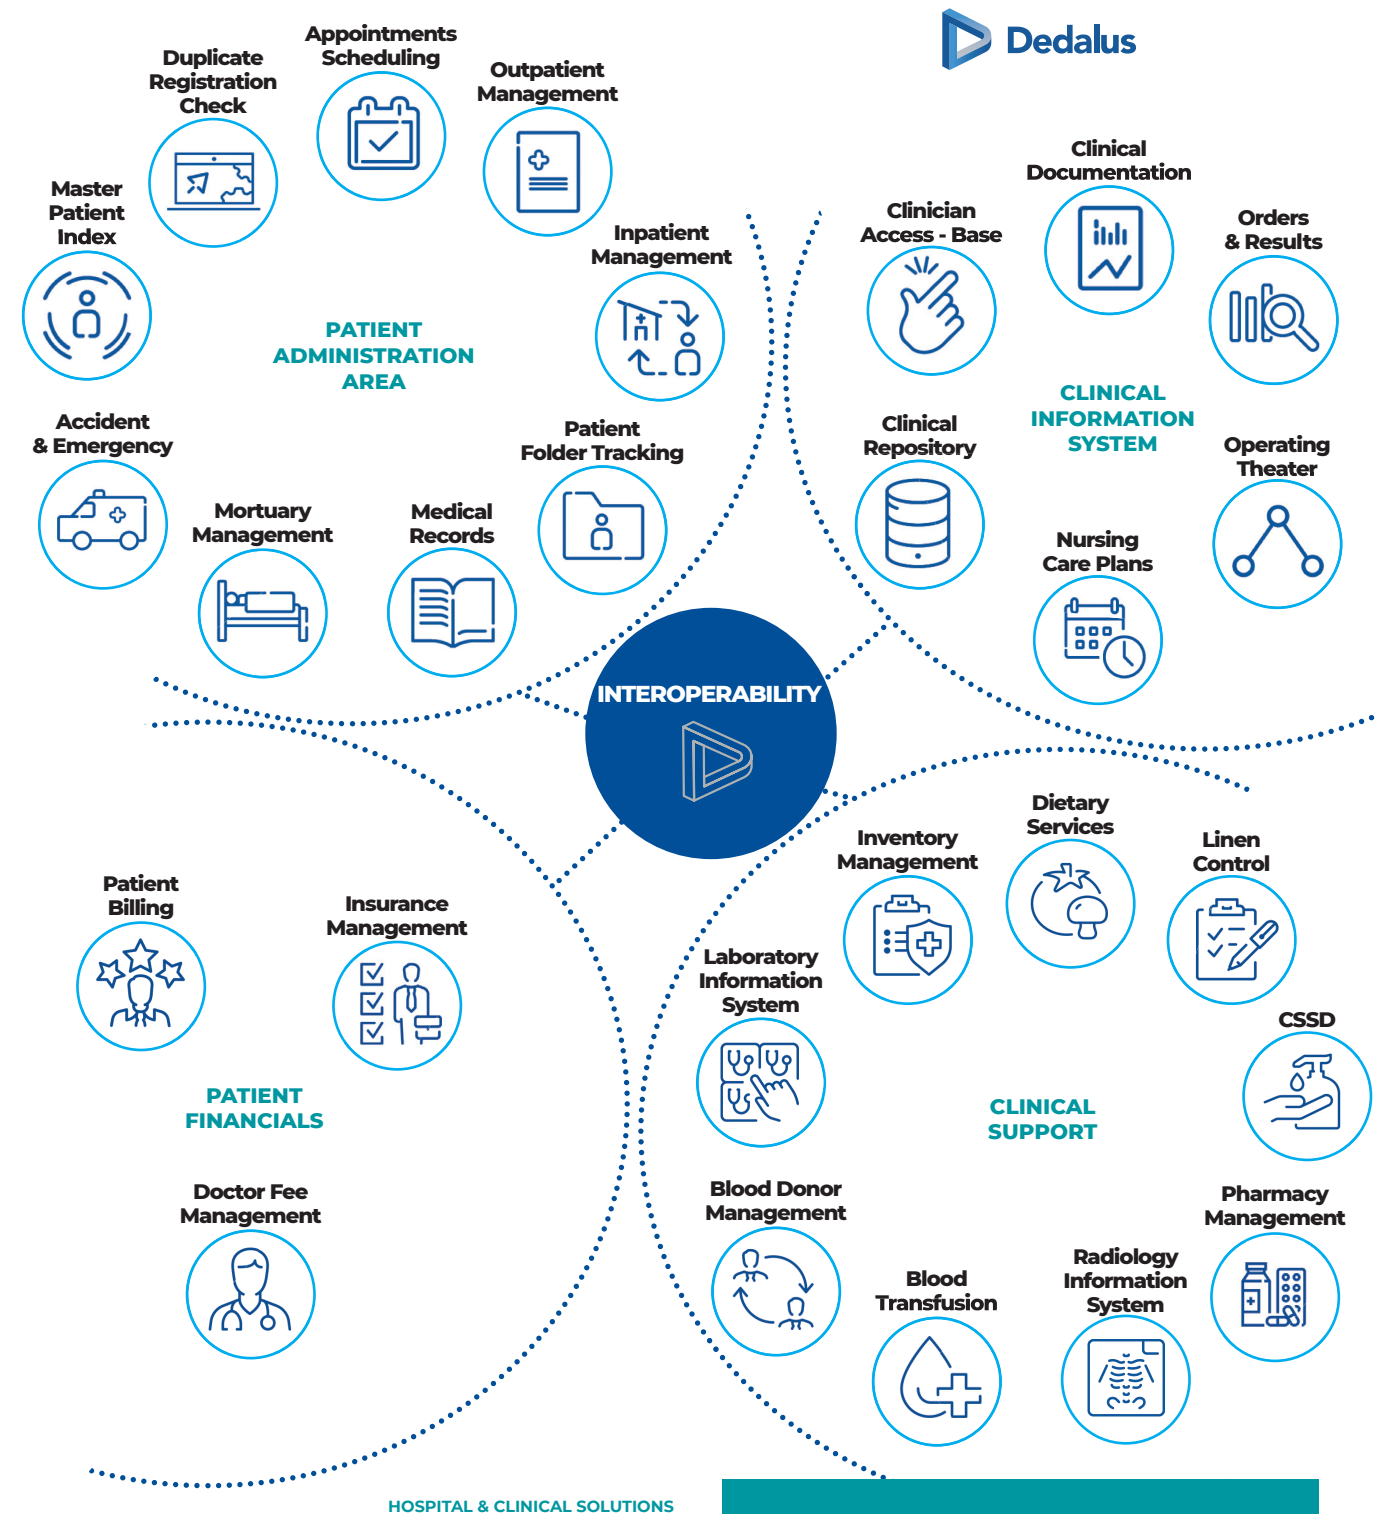

SOLUTION

ADDRESSING PATIENT ADMINISTRATIVE, FINANCIAL AND CLINICAL WORKFLOWS

Dedalus Enterprise Management is a modular, scalable, integrated hospital information system supporting end-to-end workflows, enabling streamlined operations and resource optimization.

- Increasing adoption & productivity
- Reducing costs / duplicates
- Reducing risks & improving patient safety
- Increasing patient satisfaction
- Delivering information at the point of care instantaneously

**BENEFITS**

**KEY BENEFITS FOR PATIENTS**

- Reduced waiting times
- Enhanced safety through checklists, validations and alerts
- Correct medication support by closed-loop medication management
- Multi-disciplinary care and improved collaboration among clinicians
- Improved care quality as a result of informed decision making

**KEY BENEFITS FOR DEPARTMENT MANAGERS**

- Workflow monitoring and efficiency improvements
- Redundancy elimination
- Optimized resource utilization
- Cost control by reducing waste and pilferage
- Improved and more informed decision making

**KEY BENEFITS FOR CLINICIANS**

- Access to accurate and up-to-date clinical information
- Improved clinical decision support
