

# HOSPITAL COMMAND CENTER

POWERING ACTIONABLE DATA-DRIVEN  
HEALTHCARE ORGANIZATIONS

\*Actual photo of customer's command center

**REAL TIME**

**01**

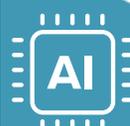

Real-time surveillance and analysis of clinical and operational data to identify risks and exceptions

**ACTIONABLE**

**02**

Actionable measures to optimize operational capacities and reduce inefficiencies and cost

**AI POWERED**

**03**

AI-powered rules engine that digitizes KPIs, measures performance, and integrates optimal actions into workflows

**INSTANT DATA**

**04**

Instant data connectivity for quick decision-making, efficient management and fluid continuity

## TRANSFORMATIONAL NETWORK EFFECT

### IMPROVING CARE & PATIENT SAFETY

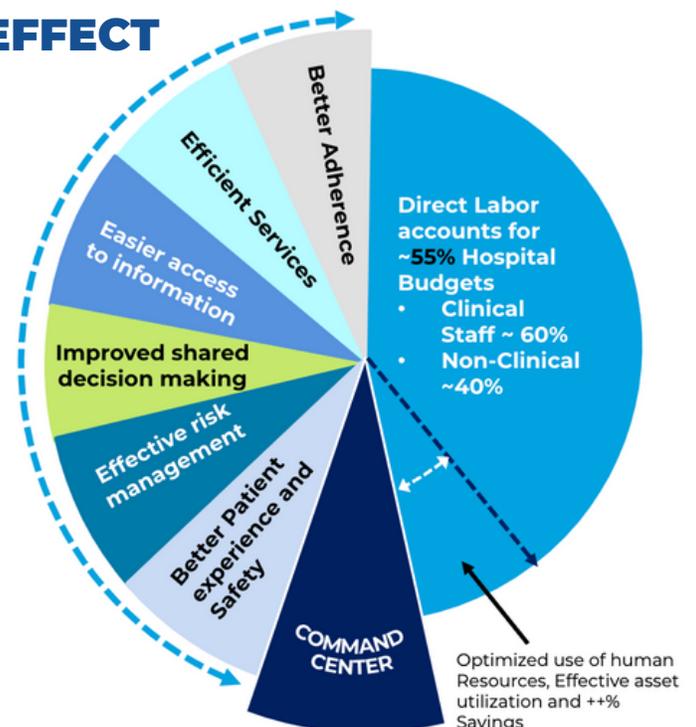

Most complete patient view from clinical and operational data resources across the full continuum of care spectrum that incorporates external environmental factors such as SDOH to deliver the promise of personalized health experiences

### OPTIMAL PROCESS & WORKFLOW

Accelerated throughput and escalated care monitoring leveraging AI/ML models and expert clinical interventions that alert providers of potential clinical and operation risk

### ENHANCED REVENUE CYCLE MANAGEMENT

Improved revenue generation driven by real-time data visibility, proactive issue management, and reduced revenue leakage are all enabled by instant performance monitoring

**Dedalus**

# HOSPITAL COMMAND CENTER

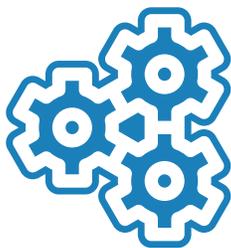

Where Data Drives  
Decisions, Outcomes &  
Patient Flow

## HELPING YOU EXCEED YOUR GOALS

Dedalus Command Center is a centralized healthcare operations control center that improves logistics, enhances enterprise visibility, and streamlines coordination across multiple departments or facilities.

A command center can involve multiple department representatives working in a single room, or it can be virtually centralized, with remote capabilities provided to decision-makers and frontline workers.

## OPERATIONAL GOVERNANCE

Create synergy among C-suite, frontline clinical, and operational staff to ensure adherence to policies and procedures, solving enterprise-wide challenges and consumer-centered experiences.

## MEETING YOUR FINANCIAL OBJECTIVES

- 01** Tangible economic effect that optimizes resources and creates immediate ROI
- 02** Network effect on other parts of the business that generated significant resource savings
- 03** Fosters improved collaboration and digitization of rich interoperability across apps & processes
- 04** Reduces the rate of payor's rejections and claim denials

SAFER CARE,  
BETTER OUTCOMES WITH  
REAL-TIME OPERATIONAL &  
CLINICAL SURVEILLANCE

Life flows through our software
