

**T4C (Trials4Care), BRIDGING THE GAP BETWEEN CONSUMERS, HOSPITALS AND LIFE SCIENCE ORGANIZATIONS**

## DEDALUS IN TRIALS

With **50% of clinical trials under-enrolling patients and 10% not enrolling a single patient**, there is a clear need for the industry to identify new suitable candidates. Due to **Dedalus' large network of hospitals and 460+M patient records**, we are in a prime position to tackle this issue and be the bridge between these patients and the life sciences industry providing patients with new innovative treatments and therapies as well as providing the hospitals that these patients belong to with much needed revenue.

## THE RECRUITMENT CHALLENGE

**\$2.6B**  
average cost

**50%**  
of trials have under-enrolled patients

**10%**  
of trials not enrolling a single patient

**+4B**

of **diagnostic results** per year produced from **+5300 Labs**

**+460M**

of **Patient Record supported** across **+6100 hospitals**

**+270M**

of **Outpatient visits** per year

**+57M**

of **Inpatient Admissions** per year

**+35M**

Emergency **Admissions** per year

**+540M**

of **Population served** across **40 countries**

## DEDALUS IN TRIALS

Today Dedalus employs **over 7700 highly skilled resources**; it has **the largest R&D software team** in the sector **in Europe with more than 2000 resources**. Thanks to its **undisputed cutting-edge portfolio** of leading the new generation solutions, Dedalus covers **the whole spectrum of needs for healthcare operators, supporting over 6000 hospitals and 5700 laboratories around the world**. Dedalus is continuing its investments into the life sciences space to provide better access **to drugs and new therapies** for patients, to increase **collaboration in the life science industry** and to **increase enrolment in clinical studies** to create more **valid and reliable results through the T4C platform**, bringing much needed funding to the hospitals within the network.

CAPABILITIES & FEATURES

# Trials4Care: A Unique Proposition

<div data-bbox="103 246 494 347" style="border: 1px solid #00AEEF; border-radius: 15px; padding: 5px;"> <p style="text-align: center; margin: 0;"><b>EDGE</b></p>  </div> <ul style="list-style-type: none"> <li>• The data and services under direct control of the care provider.</li> <li>• T4C Edge 'Explore' allows in-hospital researchers to use the Edge 'datastore' for local research.</li> <li>• Converts proprietary sources formats to FHIR, obfuscates patient identifiable data (fully anonymized) and creates clinical 'tags' that are shared to 'T4C Gravity'.</li> <li>• Infrastructure appliances reside within the local data-centre and/or the provider's cloud subscription.</li> <li>• You remain in control of your data !</li> </ul>	<div data-bbox="598 246 989 347" style="border: 1px solid #FF0000; border-radius: 15px; padding: 5px; background-color: #FF0000; color: white;"> <p style="text-align: center; margin: 0;"><b>SHIELD</b></p>  </div> <ul style="list-style-type: none"> <li>• Refers to the technologies, processes and systems used to share patient data safely, legally and ethically for secondary use.</li> <li>• Includes but is not limited to the implementation of information security, network security, application security, data privacy, consent management, data quality, auditing and logging within our solution.</li> </ul>	<div data-bbox="1093 246 1484 347" style="border: 1px solid #00AEEF; border-radius: 15px; padding: 5px;"> <p style="text-align: center; margin: 0;"><b>GRAVITY</b></p>  </div> <ul style="list-style-type: none"> <li>• A centralized research data network that aggregates metadata into the 'Metadata Observatory' (MDO) from disparate Edge services.</li> <li>• It presents it through a secure Research Hub and portal that helps research organizations perform feasibility studies, retrospective digital studies/cohort analyses, patient identification as part of the recruitment process and also RWE studies, with the obscured data.</li> <li>• Researchers can raise requests for further information about patients that closely match their study criteria.</li> </ul>

## BENEFITS:

 <p>Unlike existing solutions, T4C's sophisticated software ensures the authenticity and accuracy of the data being used.</p>	 <p>Ability to analyze internal data more efficiently for use with your own research.</p>
 <p>Ability to tap into the data of other hospitals, on the network, for use in your own investigator research.</p>	 <p>Attract more research funding/grants due to quicker progression with the research.</p>
 <p>Build on your existing investment &amp; Target operating Model (TOM).</p>	 <p>Extend your network.</p>
 <p>Build better research services.</p>	 <p>Attract more external clinical research /funding.</p>
 <p>Providing your patients with new innovative treatments and therapies before others.</p>	 <p>Long-term partnership with Dedalus clinical research hub.</p>
